How to understand your bodygraph chart → thechampagnemethod.co/library/bodygraph

TYPE	Projector. You have no defined Sacral, so your energy is not the consistent kind. What you have instead is the ability to see how other people's energy actually works, which is a different capacity and not a smaller one.
STRATEGY	Wait for the invitation. Recognition is the mechanism. Being seen and asked is what lets your particular way of seeing land somewhere it can be used, rather than being offered where it was not wanted.
AUTHORITY	Self-Projected. Your G centre reaches your Throat, so your direction becomes clear when you hear yourself say it. Talking it out with somebody who will listen without steering is the mechanism, not a preference.
PROFILE	1/3 — Investigator / Martyr. The first line investigates. It wants the ground under a thing before it will stand on it, and it is uncomfortable being asked to act before it has looked. The third line finds out by trying. What looks like a series of mistakes from outside is the method working — it is discovering what does not hold, which is not the same as failing.
SIGNATURE	Success. The feeling of having been seen and used well. It follows recognition rather than effort, which is why it cannot be manufactured by working harder.
NOT-SELF	Bitterness. The signal of effort spent where it was not invited. It follows work offered rather than asked for.

The reading contains all twenty-six activations with the planet behind each, and the written interpretation. What you have already paid comes off the price, and the link in your email is what proves it — so opening this from there means the credit is already applied. Nobody pays twice for the same thing.
